Journal of Statistical Planning and Inference 14 (1986) 413–414
North-Holland

AUTHOR INDEX*

Volume 14 (1986)

Agarwal, A.K. and G.E. Andrews, Hook differences and lattice paths (1) 5–14
Amoh, R.K., Asymptotic results for a linear discriminant function estimated from a mixture of inverse Gaussian populations (2) 233–243
Andrews, G.E., *see* A.K. Agarwal (1) 5–14
Baksalary, J.K. and R. Kala, Linear sufficiency with respect to a given vector of parametric functions (3) 331–338
Bohrer, R. and A. Martinsek, On combining Stein estimation problems: An adaptive rule under classical criteria (3) 301–309
Borah, M., *see* J. Medhi (1) 69–77
Bose, A., Certain non-uniform rates of convergence to normality for martingale differences (2) 155–167
Brown, E.F., *see* K.M. Hassanein (3) 389–400
Calvin, J.A., A new class of variance balanced designs (2) 251–254
Charalambides, C.A., Gould series distributions with applications to fluctuations of sums of random variables (1) 15–28
Chiang, C.-Y., Tests of the parallelism of several regression surfaces based on rank-order estimates (3) 373–387
Cohen, D.I.A. and T.M. Katz, A geometric connection between the cubic lattice and the honeycomb lattice (1) 29–34
Csáki, E., Some applications of the classical formula on ruin probabilities (1) 35–42
Dale, M.R.T. and T.V. Narayana, Non-parametric tests for Catalan sequences (1) 43–47
Dale, M.R.T. and T.V. Narayana, A partition of Catalan permuted sequences with applications (2) 245–249
Dube, S.N., *see* H.C. Sharma (2) 221–232
Ebrahimi, N., Estimating the parameters of an exponential distribution from a hybrid life test (2) 255–261
Eubank, R.L. and V.N. LaRiccia, Regression type tests for parametric hypotheses based on sums of squared *L*-statistics (3) 401–407
Gessel, I.M., A probailistic method for lattice path enumeration (1) 49–58
Gill, P.S., Balanced incomplete arrays (2) 179–185
Gilula, Z., On some similarities between contingency table methods and grouped data survival analytic techniques (2) 203–211
Gleser, L.J., *see* J.Y. Shyr (3) 339–358
Gokhale, D.V. and A. Sen Gupta, Optimal tests for the correlation coefficient in a symmetric multivariate normal population (2) 263–268
Gupta, S.C., Interaction efficiencies in Kronecker block designs (2) 275–279
Handa, B.R. and S.G. Mohanty, On a property of lattice paths (1) 59–62
Hassanein, K.M., A.K. Md. E. Saleh and E.F. Brown, Estimation and testing of quantiles of the extreme-value distribution (3) 389–400
Kala, R., *see* J.K. Baksalary (3) 331–338
Katz, T.M., *see* D.I.A. Cohen (1) 29–34
